*Case #1*

Mr. Holton stated the original plan was approved about 2 years ago; the amendments were made to parking and landscape. He suggested approval contingent upon the conditions from SCDOT regarding the driveway and the town engineer's suggestions. Commissioner Salters asked about the change in TMS# from two years ago, Mr. Holton stated the lot line was dissolved and so it changed to 163-07-00-003 from 163-07-00-002. Commissioner Prioleau asked if they would plan to add a flashing or traffic light on Hwy 162 in the future. Mr. Tumbleston stated he would take that suggestion to the Fire Commission and asked the planning commissioners to attend one of their meetings and share their concerns. Commissioner Black motioned to conditionally approve the amended plans, Commissioner Heyward seconded it and all voted in favor.

Mr. Holton congratulated Commissioner Salters on her election to the Town Council; this is her last meeting as a planning commissioner.

Meeting was adjourned at 6:48 pm.

Respectfully submitted,
